

Tim Summers      491 Collins Way

I have a background in Healthcare Facilities Management with Boulder Community Hospital and as a Commercial and Industrial Electrician with the IBEW, Local Union 68 in Denver CO. I have managed multi-million dollar department budgets as well as construction projects and was integral in the Capital Construction Expansion of Boulder Community Hospitals' Foothills Campus. I have a Bachelor of Arts Degree, History major and Political Science minor from Southwest Missouri State University and experience as a financial analyst in the Commercial Lending industry.

My background particularly with the Hospital allowed me to become a seasoned leader requiring strategic thinking, as well as building trusting, respectful, collaborative, highly functional relationships with Clinical departments. I was fortunate to be an agent of change within the Facilities Management Department. This was accomplished by creating atmosphere of reestablishing trust and respect, where all staff felt that their voices were heard and that they could create a positive impact.

Clear, open and honest communication was the key to these successful relationships and I believe that this approach fosters a sense of community where the best solutions are reached by building consensus and going people a sense of ownership.

Given the challenges facing The Club at Cobble Creek, I believe my talents, time and energy will allow me to be a successful Board member, where we build on the past while ensuring a successful future for The Club. Maintaining and improving the infrastructure of Clubs' physical assets and stability of the Clubs' finances along with fostering a sense of ownership by Club members where all members feel welcome and that their voices are of value are the goals I have set for myself as a member of the Club Board of Directors.

My wife Donna Luhrs and I have lived in Cobble Creek for two years, and are absolutely thrilled to live in such a warm, welcoming community which truly feels like home to us. I feel that having a sense of this community is why I decided to run for the Club Board, to give back and help with the long range success of not only the Club but of our greater Cobble Creek community.
